PUBLIC QUESTION TIME

A question was raised asking if the PC should still be considering this piece of land as part of the Neighbourhood Plan. They also noted that DCC (Highways) have assessed the site for this planning application and have indicated that planning should not be granted.

Cllrs replied that the site has been evaluated by AECOM as suitable for the Neighbourhood Plan which is separate to this planning application. Cllr Jory confirmed that he had spoken to the planning department today and while he was not able to divulge anything further, he could reassure people that the Highways objection is significant.

Cllr Deeks also explained that the Parish Council have to submit their response by referring to the constraints and contraventions to TTV23. This however does not mean that parishioners views have not been taken into account.

The point was made that the PC own land which abuts the field in question but are not in occupation of the land (it is leased to the community centre). There are no pecuniary interests.
